A... nightmare from my memory.

Show me your god, show me what else I can trust,
To make me lost...
A hope of dark, home of nightmares in the past,
That's where I grew up.

A... nightmare... from my... memory.
A nightmare from my memory.

Where is my luck? What has chosen me for un-luck?
That made my life suck.
My life is dark, memories can't be forgotten...
Live life hard.

A... nightmare... from my... memory.
A nightmare from my memory.

Where is my life? Where is my real life?
Where is my life? Where is my real life?
Where's my life?
Where's my life?

Show me your god, show me what else I can trust,
To make me lost...
A hope of dark, home of nightmares in the past,
That's where I grew up.

A... nightmare... from my... memory.

Give me back... my... life...
Give me back... my... life...
Give me back my life...
Give me back my life...
Give me back my life,
Erase my... memory...
