

Forget Cassettes "Instruments Of Action"

Visit "[Instruments Of Action](#)" on MotoLyrics.com

Hey all you kids with lightning on your backs.
Know what it's like to go down with a fight.
Cause we were built instruments of action.
Stand on a stage just to stake your claim.
Silence the crowd watch them be amazed.
We learn to play instruments of action.

We are all instruments of action.
That breathe in the excess and breathe out our own
Defenses.
I'm not scared to fight fire with fire
I'll burn my bridges down.

Mary your tales are mysterious plights.
Imagery spells b-e-a-u-t-y you wear them
Like instruments of action.

Can we look back to our mothers before
And stand on their shoulders so we can change more.
Break it apart Instruments of action.

To build it up instruments of action.
And breathe in the privilege and breathe out a new
Anthem.

I'm not scared to fight fire with fire
I'll burn my bridges down
