Cover me
Cover me
Can't you see
What they want us all to be

Come in black or come in white
Trying not to lose your sight
Watch those children's eyes of fright
The angels try to steal his might

Cover me
Cover me
Can't you see
What they want us all to be

See in them what we won't be
We have minds both pure and free
Spirits dance just pull their strings
Hide my eyes so I won't see

Cover me
Cover me
Can't you see
What they want us all to be

When you go don't go alone
They will try to take your soul
Gathering both young and old
Making sure that all are told

Cover me
Cover me
Can't you see
What they want us all to be
