(chorus)

Be ready to fly
Above everything
Don't have to know why
Don't have to carry on

We all have wings
We're just afraid to spread them
Spirits are your guide
Your heart tells you where to go

I'm afraid I'll fall
I'm not used to this freedom
Can make up my own mind
Happy is where I want to be

I'm up here so high
See what I was missing
DON't want to go home
Who'll catch me when I crash down

I spread my wings
Got to fly
When I came home
I said goodbye
