have i lost you  
did i say something wrong  
was i cruel  
i feel a distance  
growing wide  
what did i do?

tell me now  
show me how  
i can get back to you  
losing faith  
from birth to grave  
i cannot make it through  
my life is death without you

i thought i saw a spark  
in your eyes yesterday  
i know you don't understand  
where i am  
where will we go?

tell me now  
show me how  
i can get back to you  
there you are  
with all your scars  
look what i put you through  
now i cannot breathe without you

i know we'll be  
together someday  
you and me  
forever this way  
you and me, baby
