Are they really here
Or just in my mind (in her mind)
Oh and can you feel the fear
Of what lies behind their eyes
They came from the walls
They tortured us all
And drove us away from our home

Here in the night
They are calling my name
(So she goes)
There is no wrong or right
But I'm losing this game
(And she knows)
What can we do
What can we say
(They don't know)
If it wasn't for you
We would never run away
(But they go)

By the garden gate
I sit with my brother
I just hope it's not too late
For my father and mother
Shall we go back inside
There's no reason to hide
We can fight and take back our home

Here in the night
They are calling my name
(So she goes)
There is no wrong or right
But I'm losing this game
(And she knows)
What can we do
What can we say
(They don't know)
If it wasn't for you
We would never run away
(But they go)

They say when the wolves come out of the walls, it's all
over
But it's not all over, 'cause we won't go. We won't go!

Here in the night
They are crying in pain
(And she knows)
Everything is alright
We did not fight in vain
(They won't go)
We know what to do
And we know what to say
(Now they know)
There's no power in you
We will not run away
(We won't go)
