Officer there seems to be an issue
The girl who broke my heart broke me the worst news
Our dreams of growing up
Are blowing up, she showed me up
But now I'm stuck on her just like a tattoo

One more day face to face and then I could say
You got me crushed at eighteen
I'm barely legal and I can't believe
You ran away and now I'm begging you to stay

Fingers crossed suddenly
I can barely find the room to breathe
I want you, I want you to want me
I want you, I want you to want me

From the heart of the city to the tip of Japan
Experience the romance only found in France
Your dreams have giving up
The door is shut, I'm not good enough
And now I'm lost in the city without a plan

One more day face to face and then I could say
You got me crushed at eighteen
I'm barely legal and I can't believe
You ran away and now I'm begging you to stay

Fingers crossed suddenly
I can barely find the room to breathe
I want you, I want you to want me

One more day face to face and then I could say
You got me crushed at eighteen
I'm barely legal and I can't believe
You ran away and now I'm begging you to stay

Fingers crossed suddenly
I can barely find the room to breathe
I want you, I want you

You got me crushed at eighteen
I'm barely legal and I can't believe

You ran away and now I'm begging you to stay

Fingers crossed suddenly
I can barely find the room to breathe
I want you, I want you to want me
