"Who Blames You"

I blame the state and I blame authority
I blame hate, I blame the majority
I blame the flame that burns in the back of my eyes

I blame this and I blame that
And I pass the blame every chance I get
Cuz I ain't gonna take the fall this time

Who blames you?
Who blames you?
I blame you

I'll blame my anger, I'll blame every stranger
I'll blame the schools and I'll blame the news
I hold you down and force the blame on you

I blame the Army, Air force, Marines
I blame the drugs that took my friends from the scene
But most of all, I gotta blame you

Who blames you?
Who blames you?
I blame you
