And there, this is your answer Claire
I can't guarantee that I'll be true
But on the sleepless city nights
I'm just a shadow 'neath the street lights
Who would die for you
I would die for you

By myself, by myself again
Another victim of the road
I played my show now there's no way home
And there's nowhere in this town to go
So I grabbed my coat
from the hotel lounge
Bummed a cigarette
and found the exit out
And the rain reflection on the street
could wash the whole damned city upside down

And there, this is your answer Claire
I can't guarantee that I'll be true
But on the sleepless city nights
I'm just a shadow 'neath the street lights
Who would die for you
I would die for you

I would die for you
I would die for you

And there, this is your answer Claire
I can't guarantee that I'll be there
But on the sleepless city nights
I'm just a shadow 'neath the street lights
Who would die for you
I would die for you

I would die for you
I would die for you
I would die for you
I would die for you
