"In The Galaxy"

would you go thinking
Thoughts of leaving me?

All I need is to just believe
in you endlessly like the sun on the sea.
'Cause life gets hard,
all your dreams so far
have been shooting stars in the galaxy.

And if I told you I blew all my money
And I had nothing left but what you see.

Would you stop calling
and would you stop coming
Around so easily

'Cause all I need is to just believe
in you endlessly like the sun on the sea.
'Cause life gets hard,
all your dreams so far
have been shooting stars in the galaxy.

What a perfect day
for a love parade
That's what I'd do
That's what I'd do for you
