But that's why I've survived all this time
And I'm taking shape
like an angel falls from grace
Lucky sevens in my soul will still shine

You made a big mistake letting me go
At least that's what you say,
but I know what I know
I was carrying your weight
down a deep hole
And losing my own feet growing harder
from your cold

And hey disarray's just a moment away
But that's why I've survived all this time
And I'm taking shape
like an angel falls from grace
Lucky sevens in my soul will still shine

And hey disarray's just a moment away
But that's why I've survived all this time
And I'm taking shape
like an angel falls from grace
Lucky sevens in my soul will still shine

Lucky sevens in my soul will still shine
Lucky sevens in my soul will still shine
