Stumbling DJ, play it one more time

8 o'clock sharp  
you were gonna pick me up  
But your car broke down  
Now you need a tow truck  
Isn't that the way we paint the town  
10:45 you pick me up on your bike  
In a three-piece suit everybody looks twice  
Isn't that the way we paint the town

Long enough to say we saw  
the sun come up  
The Songs we sing will sooth our suffering  
Stumbling DJ, play it one more time

Late for the party everybody's crashed out  
You got nine on the floor,  
you got four on the couch  
Isn't that the way we paint the town  
We're like two stray dogs  
sitting on the front steps  
Sipping up the last drop  
of night that's left  
Isn't that the way we paint the town?

Long enough to say we saw  
the sun come up  
The Songs we sing will sooth our suffering  
Stumbling DJ, play it one more time

Long enough to say we saw  
the sun come up  
The Songs we sing will sooth our suffering  
Stumbling DJ, play it one more time
