"Lonesome Run"

Night after night
I ride the same dark road
Too many white lines
Too many miles to go
I'm pushing too hard
But I can't stop 'til it's done
I guess it's down to me
It's bound to be a lonesome run

I'm down in a hole
I dug myself in deep
I'm paying a price
And the price is steep
I'm nobody's fool
No I can't blame anyone
It's time to pay my dues
It's gonna be a lonesome run

Chorus:

When the darkness closes in on you
It takes a little blind faith
It's never been an easy thing to do
To look truth in the face

Pleasure and pain
They're both a holdin' me tight
One's turnin' left
I feel the other turn right
I'd give up the wheel
But I don't trust either one
It's a hell of a ride
It's bound to be a lonesome run

It's a hell of a ride
It's bound to be a lonesome run
