"Fate"

Life comes with an unknown fate
We live and learn to create peace within
Only to find that we have no control over the issues we
Must face

Those happy times we try to remember
While sadness and sorrow we tend to forget
Holding close to the heart the ones we love
Wondering why they have passed

On the outside we try to mask the sorrow
Deep within we long for peace

Thinking that things will stay forever
Seeing the pain in each other's eyes
Feeling their pain on the outside
Wondering why they have passed

On the outside we try to mask the sorrow
Deep within we long for peace
Searching to find the seeds of hope
Sadness is gone and life returns

Light begins to break the darkness
Overwhelmed with the feelings inside
Life returns with a new hope
And brings peace at last

On the outside we try to mask the sorrow
Deep within we long for peace
Searching to find the seeds of hope
Sadness is gone and life returns
