### "What Lies Ahead"

I rest here beyond the storm  
In the past rage vicious winds  
Still waiting beyond the storm  
I don't know what lies ahead

Is it really you or is it me  
Is it really gone or am I free to be  
Can I walk away and still be whole  
Is that piece of me still lying there inside your soul

Tears won't wash away the truth  
Lies won't fill the emptiness  
Stay frozen or face the truth  
Time won't wait for us to choose

Is it really you or is it me  
Is it really gone or am I free to be  
Can I walk away and still be whole  
Is that piece of me still lying there inside your soul
