I still see the sunday morning light
Start again how t used to be
Funny that I never realize
All through my thoughts away
A little dool that was at my side
I start to sing a new song
Than to hear someone say goodbye
The day u came along
Down in mexicale lane
There's a place where I became
So alone I long to hold you one more time
Down in mexicale lane
I'll be seeing u again
Till tomorrow I'll be dreaming that you're mine.
It's the first time that I fell in love
It's the last time that I care
You'll forever only thinking on,
Till I hold you again.
You change my life into a rose overgreen
I'll never thought
I've been found I tell my friends
All where I've been
I won't be back no more.
Down in Mexicale Lane
There's a place where I became
So alone I long to hold you one more time.
Down in Mexicale lane
I'll be seeing you
