Do you need anything from duty free?  
I gotta get out of this endless day  
Do you need anything from duty free?  
I gotta get out of the U.S.A.

Kickin in gifts to the trickers and treaters  
Kill em with kindness and gifts for the needy  
Brinkman and Lloyd's or I'll drink it from toilets  
Sit on your glasses while your money gets moist  
Hide all the luggage you better hide it from trouble

Smells like the '40s like Europe and rubble  
The locals dont know you theyre the ones you want love  
from  
Comforts or cots let me check yeah I got one

(Chorus)

If I could I would change my name  
And get a girl and jump a plane  
I overheard them say they want to rearrange their  
faces  
And blow out their brains  
I was strange while I was wasted

(Chorus)
