With your brand new look  
Don't clutter my mind  
With your brand new books  
An innocent smile  
That I once mistook  
What a god damn shame  
Yeah it's a god damn shame

Lately I just don't feel like myself  
You can try to change me into something better

Or into someone else

(chorus)

But don't break my heart  
With those brand new looks  
Don't break my mind  
With those brand new books  
An innocent smile  
That I once mistook  
What a god damn shame  
Yeah it's a god damn shame  
Oh what a god damn shame  
Yeah it's a god damn shame
