Take my money reck my song  
All the good times they got blown  
But I don't owe you, I don't owe you now  
Let's have a drink, let's take a ride  
I don't wanna think, and i'm not going to drive  
Drinks all around for my wasted friends

Hide my car and take my keys  
Steal my dope and set me free  
Free to know you, free to know you now

Let's have a drink, drink to the stars  
As the guards are crashing in their cars  
Drinks all around for my wasted friends

Sentiment trip at low rate speed  
Money money money for low-grade weed  
All the noise and beats been sold  
And all the good times they got blown

no i don't owe you, I don't owe you now  
Let's have a drink, let's take a ride  
With the guards, blessed in my mind  
Drinks all around for my wasted friends  
Drinks all around for my wasted friends  
Drinks all around for my wasted friends
