A bit of earth, what I've got to say
A bit of world, another space in the sun
A bit of love, what you've got to say
Leave me and this fairest fun

I'm just a finger with a song
I'm make them laugh to right them wrong
For just a singer with a bit of earth
I'm caught in between with a fading dream

A bit of earth, what we've got to say
A bit of world, of the many's bend
A bit of love, and I just to carry on
Leave me and the simple man

It's yours, I'm just a finger with a song
I'm make them laugh to right them wrong
For just a singer with a bit of earth
I'm caught in between with a fading dream

(Ad lib section!)

Just a finger with a song
I'm make them laugh to right them wrong
For just a singer with a bit of earth
I'm caught in between with a fading dream
Caught in between with a fading dream
Caught in between with a fading dream

A bit of earth
A bit of earth
A bit of earth
A bit of earth, please help me
