Most people live on a lonely island  
Most people live on a lonely island  
We've been together and forever  
Out of this time and picture at all  
And most people live on a lonely island

In this patience  
In this moment of life, of a perfect kind  
But it seems to think, I hear from you  
This come and lonely at all  
If I could time, this really out for us all

Most people live on a lonely island  
Most people live on a lonely island  
We've been together and forever  
Out of this time and picture at all  
Come us, most people live on a lonely island

You don't need me, tell it  
What's gone wrong? No, what's going on?  
But it seems to think, I hear the truth  
The family each other at all  
It seems that we knew at the past against the wall

Most people live on a lonely island  
Most people live on a lonely island  
Most people live on a lonely island  
Most people live on a lonely island  
Has come to be friends will one another  
Out of the paint and future at all

Most people live on a lonely island  
Most people live on a lonely island  
Let us freedom's won't forever  
Out of the paint and future for us all

Bali... for Bali, Bali, Bali, for Bali Ha'i
