

Pyogenesis "Alternative Girl"

Visit "[Alternative Girl](#)" on MotoLyrics.com

She is nice, a modern-art girl
With the coolest haircut in the world
She likes to dance to alternative songs
And I'd like to party with her all night long
And I wanna know, and I wanna know,
and I wanna know
I wanna go where my alternative girl is
And I wanna know, and I wanna know,
and I wanna know
I wanna go where my alternative girl is
Alternative music is what she's living for
She hates the charts and of course there's even
more
She likes our band, she likes the way we play
And me of course for not being gay
And I wanna know, and I wanna know,
and I wanna know
I wanna go where my alternative girl is
And I wanna know, and I wanna know,
and I wanna know
I wanna go where my alternative girl is
