[Music & Lyrics: Flo V. Schwarz]

Too much anger, too much argue  
That seems not ok  
I don't see a need to change my mind  
so tell me how about you  
It has to be over - no need for a lie  
It has to be over - let's say good bye  
It has to be over - even if she cries  
How much longer you want to go on  
some things never change  
I don't want, I don't need, I don't see a way out  
We won't rearrange  
It has to be over - no need for a lie  
It has to be over - let's say good bye  
It has to be over - even if she cries
