"In The Darkness"

So maybe laid a man
there's an eye looking land in the darkness.

Or maybe in my mind it's a high word of time in the
darkness.

And maybe it says
there's an alien race
I wouldn't be surprised,
so...
we'd like to introduce you to..the darkness.

I'm streaming in, I'm streaming out

Standing in the country's eye
Will..by multiply

Is always standing outside looking in this
..looking in
Say it may take a while
Putting all diamonds in my smile
And maybe I won't even go to work that day
I don't care if I'm in trouble at all
I'll just sip and this ..with my lingoies in..of the darkness.

Oh ohh
