"Shuggie"

Visit "[Shuggie](#)" on MotoLyrics.com

I live in the parlor,
But I'm down the street
See him picking up flowers off the floor
And drinking tea
But you don't love me, that's news to me

I met your daughter the other day, that was weird
She had rhinoceros shaped earrings in her ears
But, hey man have a soda, it's on the house
Remember what I told you, about the rooms inside this
house

But you don't love me, that's news to me
That's news to me, that's news to
I think you and i, could be, in love

If you believe in yourself you can free your soul
My heart is breaking in two, I don't know what to do

But you don't love me, that's news to me
That's news to me, that's news to
I begin and I begin, and I

If you believe in yourself you can free your soul
My heart is breaking in two, I don't know what to do
If you are right with the world
You can make it your girl
I'm happy, she's happy
