Rotting from the inside out,
Broken like a little doll.
Never knew what it was all about,
Only knew that I would take the fall.
Never could you understand
How deep the words cut in my soul,
Felt the nails go through my hands
As you nailed me to the fucking wall.

I blame you for all the guilt,
All the things I ever felt.
Wrapped up in my dying heart,
What you said tore me apart.
Knowing that your light burns dim,
Knowing that your fate looks grim.
What I know will keep me strong,
Give me strength to carry on.

The first day of my new life,
All the things I never asked.
To tell the future, to see the strife,
Some thing inside me just can't get passed.
Lost it all, I've nothing here,
Empty pockets and swollen eyes.
Everything I could ever fear,
The rain came down from the skies.

I blame you for all the guilt,

All the things I ever felt.
Wrapped up in my dying heart,
What you said tore me apart.
Knowing that your light burns dim,
Knowing that your fate looks grim.
What I know will keep me strong,
Give me strength to carry on.

Knowing that your light burns dim,
Knowing that your fate looks grim.

I hate to feel the hurt inside,

Everyday I think of you.
A part of me has just died
Every time I think it through.
It's hard to let these things rest,
Gave it all got nothing back.
Something inside I possessed
Gave it all turned my heart black.

I blame you for all the guilt,
All the things I ever felt.
Wrapped up in my dying heart,
What you said tore me apart.
Knowing that your light burns dim,
Knowing that your fate looks grim.
What I know will keep me strong,
Give me strength to carry on.
