About You

I cant' hide
my thoughts no more
and I can't lie
so walk out the door

I have tried
You know I do
But this loves a lit
And I'm through with you

Chorus

If I could change
The way I feel
I know I would
But that's just not the deal

I still love you
And I always will
But I can't change
This was I feel

Verse 2

It's been so long
My time with you
I'll keep in heart
The things we'd do

I wish we had
This thing called love
I know it would be you
Like sent from above

Chorus

If I could change
The way I feel
I know I would

But that's just not the deal

I still love you
And I always will
But I can't change
This was I feel

About you
In my life
You made me weak
I can't survive

One more day
With you with me
This is the way
It has to be

I'm on my own
I'm all alone
All alone
I'm on my own
