Fat Guy in a Little Coat

It's funny  
how feeling change  
and how they rearranged  
towards me and you

and how you  
acted like a friend  
when only in the end  
the truth came through  
so you bitch and then you whine  
someone give this kid a dime  
so he can call somebody who cares

I don't need a friend like you  
A kid who complains through and through  
If I stab you in the back  
You'll see how I feel

Chorus  
It's all mine  
It's all for me  
I want it done this way  
And it's the only way it can be

No your  
Your doing this wrong  
Your not allowed input  
During " my " song

So move on  
Our time came to an end  
No need to come back now  
Again and again

I'll be nice  
Maybe one more time  
Before you get me mad  
And I speak my mind

So maybe now you'll see  
You don't matter much to me  
So I don't think that I would care

Cause I don't need a friend like you  
A kid who complains through and through  
If I stab you in the back  
You'll see how I feel

It's all mine  
It's all for me  
I want it done this way  
And it's the only way it can be

No your  
Your doing this wrong  
Your not allowed input  
During " my " song
