Curious  
We're curious about the whole affair

She comes from London  
(We think that is so romantic)  
Maybe she is distantly related to Di  
He met her at college  
She'll graduate with honors  
Maybe our brother fell in love  
With her mind

She's very bright  
She's very bright  
She's very bright  
That's what he said  
That's news to us

News to us  
We're curious about the whole affair

I know our brother  
I know what he wants  
He wants to make an entrance  
In grand style  
I know our brother  
He's trying to tease us  
He knows the wheels are turning  
In our minds

We're curious  
Curious  
We're curious about the whole affair  
We're so curious  
Curious  
We're so curious  
And it's so unfair
