Let me be your harbour in a raging storm
Let me be the mender when your sails are torn
Let me be your anchor, lest you sail away
Let me be your lover for another day

Let me be, let me be
Let me be, let me be

Let me be your brother, let me be your friend
Let me be a willow, when you lean, I'll bend
Let me be a young man who's in his prime
Let me be your father in another time

Let me be, let me be
Let me be, let me be

Let me be your counsel when you're on your guard
Let me be your comfort when the road is hard
Let me be your shelter when you need to hide
Let me be your leader, let me be your guide

Let me be, let me be
Let me be, let me be

Let me be your music, let me be your joy
Let me be your sorrow when you walk away
Let me be your memory of a faded past
Let me be your future, let me be the last

Let me be, let me be
Let me be, let me be

Let me be, let me be
