

P.Y.T. "Heavens"

Visit "[Heavens](#)" on MotoLyrics.com

Heaven open up, they're letting light in now
They're letting light in
Wandering not invited but my day will come to pass
And I'll be leaving so fast
At the drop of a hat things be leaving so fast

Heaven all purple and white
You can rest assured now
That I'm a believer
No train rides or idle time will be spent thinking of
another
Will be spent dreaming of no other

Just look at the pretty colors
I'd be a fool to make you, make you bother
But you do it and go about it like a queen
A puff of smoke, you're still around me
And go about it like a queen
A puff of smoke, you're still around me
