Alli Davis
"Party Hard Enough"

We like to live it up, we like to laugh it up
We can't party hard enough, we can't party hard
enough
We like to live it up, we like to laugh it up
We can't party hard enough, we can't party hard
enough

Remember those summer days, we would play
Pretend that we would run away, no responsibility
It was on, morning till the break of dawn
We would watch the sunrise with the music on
It was summer, we were lovers
We were best friends under the covers
We were drinking, every weekend
Living free, not caring what they thinking

Cruising, baby just you and me
Our bodies moving, right along to the beat

We like to live it up, we like to laugh it up
We can't party hard enough, we can't party hard
enough
We like to live it up, we like to laugh it up
We can't party hard enough, we can't party hard
enough

Remember how we used to do, me and you
Meeting for a rendezvous with the crew
We would get our party on, Bacardi on
I were your medallion, you're my stallion
We were homies, one and only
Every time they played our song, you would hold me
We were drinking, every weekend
Living free, not caring what they thinking

Cruising, baby just you and me
Our bodies moving, right along to the beat

We like to live it up, we like to laugh it up
We can't party hard enough, we can't party hard
enough

We like to live it up, we like to laugh it up
We can't party hard enough, we can't party hard
enough

Rolling with the homies, never getting lonely
All my girls, all your boys, drinking booze, making
noise
Alli in California, don't say I didn't warn ya
We can't party hard enough, no, we can't party hard
enough, no

We like to live it up, we like to laugh it up
We can't party hard enough, we can't party hard
enough
We like to live it up, we like to laugh it up
We can't party hard enough, we can't party hard
enough
