Into the night
Into the night I fly with you
Into the night I will fly

Va-deham-bedeve-nehiyo
Veneha-bedena-hahuheya-ni

This is just a simple song
It's really quite personal
But I pour it in anyway

Into the night
Into the night I fly with you
Into the night I will fly

Out from the light
In shadows, I will follow you
Into the night I will fly

I want you in my tears
Ocean full
Hollow, hollow like this room
Filled with strange faces

I want you and all the while
I know you are free, free
To go alone
