"Just A Little Bit Of You"

Visit "[Just A Little Bit Of You](#)" on MotoLyrics.com

Ooh, just a little bit of you everyday (Just a little bit)
Will surely keep the doctor away
Just a little bit of you everyday (Just a little bit)
Will surely keep the doctor away

I told my mama how I feel
About your power, your love can heal
Can't no doctor's remedy
Ever do what you do for me

Just a little bit of you everyday (Just a little bit)
Will surely keep the doctor away
Eeny, weeny, teeny bit of your love, baby
It's all I need (All I need), it's all I need (All I need)

Since the day I've been lovin' you
I can't catch a cold, I can't catch the flu
The sweet lovin' you've been givin' me
Has become my daily need, ooh

Just a little of your love everyday (Just a little bit)
It's all I need (All I need), it's all I need (All I need)
Just a little bit, baby (Just a little bit)
That's all I need, that's all I need

So don't send no doctor to my door
'Cause Doctor John's been here before
Don't you send him, just come yourself
Bring your lovin' and nothin' else

Ooh, just a, just a, just a little bit of you everyday (Just a little bit)
Will surely keep the doctor away
Just a little bit of you everyday (Just a little bit)
Will surely keep the doctor away
