"Break The Border"

It makes me sick
These different voices in my head
With all those different feelings
Of hate, faint and dread
Fall down
Never rise again
Break down
On every night
I have to listen to this never fading echoes
Falling down in my abyss

[Chorus:]
You cannot trust my words
I am friend and enemy
In the same body
I wish I would really know
Who I am
I'll break the border again

Look at my scars
They are bleeding once again
Now the time is right
To break the border once again
Lay all your trust in me
And I will bring you pain

[Chorus]
This is insanity
On a higher level
I have carved my name
Deep in your skin

[Chorus]
So many times

I have tried
But this revolution
Will end in execution
As you can see I'm still alive
And I will never ever die
This is all I have to say
You will no longer seize my day
