So laid back, cool and calm
Never having nothin' negative to say.
Is it just an act or is this
The way you carry yourself everyday.
So perfect in every way,
Our outter beauty's gorgeous and inside x2.
Let the complements fall where they may,
A man like me could fall for a girl like you.

Hook

I'm sure you've touched a lot of lives.
Continue to let your love light shine.

Is it true what they say,
"The shy ones are the ones to be watchful of"?
Lady I'd like to know
'Cause spendin' time with you got me fallin' in love.
From head to toe you're so fine,
Don't even have a hair stickin' outta place
And when I pay attention to your mind
I can see where the beauty's based.
