Waltzing like when she was alive
She can't find the other side, Angel
Although translucent she's still smashing
Stay an dance with me a while, Angel

She can't live distraught
Propellered hearts and varicose thoughts
She can't live distraught
Propellered hearts and varicose thoughts

As I crumble to and fro
I strive to learn what children know, Angel
Travel lightly when you're in denial
Can I be king for just a while, Angel?

She can't live distraught
Propellered hearts and varicose thoughts
She can't live distraught
Propellered hearts and varicose thoughts

Travel lightly when you're in denial
Can I be king for just a while, Angel?

Although translucent she's still smashing
Stay an dance with me a while, Angel

She can't live distraught
Propellered hearts and varicose thoughts
She can't live distraught
Propellered hearts and varicose thoughts

She can't live distraught
Propellered hearts and varicose thoughts
