Woah!
Yeah!
I think we've had enough of all your spineless talk
Of all your hateful words
We've drawn the line
This is a battle cry (the cry!)
This is a raging war (the war!)
This is the fight that we have been waiting for
There's no more compromising (compromising!)
There's no more falling back (falling back!)
We'll fix our bayonets and bring you down
(This is a battle cry) The cry!
(This is a raging war)
(This is the fight that we have) We have! (been waiting
for)
Go!
I will strike you down (down! yeah)
I think we've had enough of all your spineless talk
Of all your vicious lies
I'll bring you down
This time you go down dying slow
This is a battle cry (the cry!)
This is a raging war (the war!)
This is the fight that we have been waiting for
This is a battle cry (the cry!)
This is a raging war (the war!)
This is the fight that we have been waiting for
We (this is a battle cry!)
Will (this is a raging war!)
Strike (this is a battle cry!)
You (this is a raging...)
Down! (war!)
