It's Friday night and I stay
home and alone
The loneliness that I feel
is breaking my soul
Baby, I need you
here right now
My body is burning
please call me now
Cause now I know
that all that I need
is only your love

Call me,
When you feelin lonely
in the night
So, just call me
make me lose my mind....
Come and play tonight!

Call me,
Why don't you call me
I'm feeling lonely
I wanna ah, ah, ah, ah
Call me,
Oh baby call me
I'm feeling lonely
I wanna play tonight
Call me,
Why don't you call me
I'm feeling lonely
I wanna ah, ah, ah, ah
Call me,
Oh baby call me
I'm feeling lonely
I wanna play tonight

Tonight I'm feeling so high
waiting for you
The only thing that I need
is being with you
Baby I need you here
right now
My body is burning
please call me now
Cause now I know that
all that I need is only your love

Call me,
When you re feeling lonely
in the night
So just call me
Make me lose my mind
Come and play tonight
Call me,
Oh baby call me
I'm feeling lonely
I wanna play tonight
