Tell me just what happened
Let me get this down
But I better hear the same thing
When I ask around
No one's calling you a liar
But there's no smoke without fire

The alibi you sold me
You know it ain't by your type
A little birdie told me
And I got you dead to rights
No one's calling you a liar
But there's no smoke without fire

Darlin' please believe me
Cross my heart you said
Well now my friend I turned around
You had your fingers crossed instead
No one's calling you a liar
But there's no smoke without fire

Now I'm a one man jury
Oh I got all the facts
Do you wanna change the story
Now before the judge gets back
No one's calling you a liar
But there's no smoke without fire
No one's calling you a liar
But there's no smoke without fire
