You got me so I cant help but fail
I can't watch over my head and tail
well I can't win baby
I can't win with you
strike me dead if i dont love you
and I'd be damned if I do

Now how'd I show you I still care
If I'm to mind my own affairs
well I can't win baby
I can't win with you
stike me dead if I don't love you
and I'd be damned if i do

Now I'm not sure just a how much more I can take
Ain't I suffered long enough for one mistake

Now baby I aim to please and I always will
If you just hold the target still
Now I can't win baby
I can't win with you
strike me dead if I don't love you
and I be damned if I do

Now baby I aim to please and I always will
If you just hold the target sill
Now I can't win baby
I can't win with you
strike me dead if I don't love you
and I'd be damned if i do.

Woo woo Strike me dead if i don't love you
and I'd be damned if I do.
