

Q-Tip

"Cold Heart"

Visit "[Cold Heart](#)" on MotoLyrics.com

Where are you going now?
Why do you make me always wonder
What are you feeling now?'
Do you dream like other people?

I know you sit and talk about us
And laugh out loud
Why don't you stop and think about it
Or let me out
Of your cold, cold heart

Let me out
Of your cold, cold heart
Cold heart

Why do you walk away
When I ask you what you need and
I want to feel alive
What do you want I'll be there somehow

You always say there's no problem
And then you're gone
Why don't you stop and think about it
Or let me out
Of your cold, cold heart

We can stick around wasting each other's time
Playing these games twisting each other's minds
Or we can make a stand to be together
I hope that you will stay

Let me out
Of your cold, cold heart
