"Stand By Me"

Thoughts about our love have sent me
Higher than I've ever been before
Can you feel it baby?
Doesn't matter where you are
I've got to have you more and more with me
Think about it baby

[Chorus:]
I want you to stand by me
Together we can make it happen
Stand by me
Cause only in your arms I feel it
Think about our life of love... Oh God
I've got to have you stand by me

When a shadow passes by
Remember all the lies you've heard before
Listen to me baby
I won't try to change you cause I love you
And what you give to me
Can you feel it baby?

[Chorus]
