"Too Blessed"

Visit "[Too Blessed](#)" on MotoLyrics.com

Do that, do that, do, do that, that, that
Do that, do that, do, do that, that, that
You better, do that, do that, do, do that, that, that
Do that, do that, do, do that, that, that

Here we come yo, here we come
Here we come yo, here we come
Here we come yo, here we come
It's your boy Kev Mich on the microphone

Yo, I love the hood but it gets rough
Growing up there sometimes it gets tough
Especially when mommy is daddy too
And she's trying to make a man of you

But why complain, that's not what's up, yeah
Negative turns to positive, if it's wrong do the opposite
What doesn't kill only makes you strong
Hustle hard and keep grindin' on

'Cause I'm too blessed to be stressed
And I'm too fresh to be pressed
There's so much going on today but I can't let it worry
me
'Cause I'm too blessed to be stressed

You better, do that, do that, do, do that, that, that
Come on, do that, do that, do, do that, that, that
You better, do that, do that, do, do that, that, that
Come on, do that, do that, do, do that, that, that

Yes, I know that I am older now
But sometimes my problems get me down
My bills are stacked up, my credit's jacked up
Rent is racked up and my toilet's backed up

Damn, wish I could flush the drama away
Negative turns to positive, if it's wrong do the opposite
What doesn't kill only makes you strong
Hustle hard and keep grindin' on

'Cause I'm too blessed to be stressed
And I'm too fresh to be pressed
There's so much going on today but I can't let it worry
me
'Cause I'm too blessed to be stressed, to be stressed

Blessings decent on us, sometimes we neglect
What we think is problematic can sometimes be perfect
Acknowledge our shortcomings and build up on our
strength
Emotions can circumvent, down play or just prevent

Fine if she doesn't wanna speak to you, bro
She can pass on the golden goose, that shit's on her
And it's cool if he act a fool, shit's always real
As the days go by he may not cry but loss he will feel

Make it easy on yourself, stay thankful and strive
Let go of inhibitions and let go of your pride
As Kev sings the song, we're gonna push it along
Too blessed to be stressed, no stress in the strong

Wouldn't put you through it, if I didn't do it
And I didn't know firsthand that whatever you want, you
can have
Don't waste time complaining, live your life today and
The future's right up in your hands, what you gon' do
with it then

You better, do that, do that, do, do that, that, that
Come on, do that, do that, do, do that, that, that
You better, do that, do that, do, do that, that, that
Come on, do that, do that, do, do that, that, that

'Cause I'm too blessed to be stressed
And I'm too fresh to be pressed
There's so much going on today but I can't let it worry
me
'Cause I'm too blessed to be stressed

Go on and do that, do that, do, do that, that, that
Come on, do that, do that, do, do that, that, that
You best to do that, do that, do, do that, that, that
Come on, do that, do that, do that, do that, yeah
