Title: Behind It ALL - 9Lies

V1

Well look what you've done,
you've broken everything.
I'd like to take my hand off you
if I thought, that it would make me feel any better.

You'll see how you'll age In your parents face,
so I've been told,
But you will always become old in the end.

Bridge:

And Maybe now im over it,
and it wont happen again,
not counting the time before
the time before the time before..

Chorus:

Im gonna step right up and be counted
Im gonna jump right over board,
i'll step on a plane and fly away....
and then i'll sail right back to you.
Cause in here my life is empty,
and out there im lonely to,
together we shall fight for happyness
together we will concur truth.

V3

and now its time to face the cold
the meaning behind it all
Lifes a bitch above it all

V4

And now with nothing left to say
and looking back is no better way
Death will come to save the day, yeah

Bridge 2:

now im starting to feel
alone inside it all

and im starting to look and feel so small

Chorus repeats

And now with nothing left to say
looking back is no better way
death will come to save the day.
