Slippin Away - 9Lies

V1:

You always said it wont be you...
Your running to disaster!
Your still as easily laid in more ways than one...
Ah! Let me come all over you!

V2:

You left a guilt inside my mind...
Sometimes the good can still be bad!
But still ur drivin me insane...
You'll maybe push me over the edge!

Bridge:

But when we got together,
My Energy, slipped away!
And when we get together,
If we get together!

V3.

I heard the lay plan threw the grape vine...
A kid is what you've got now!
Its strange the birth fallin at a time...
9 months from when we.....>

Bridge:

..> from when we got together,
My Energy, slipped away!
And when we get together,
If we get together, again!

Chorus: (over GNR bit)

They say that your so young
They say that your mixed up
Forever without a cause
a fox in pure skin,
am I gettin it right?
have I become cool?
You asked for one smoke before I go....
A smoke a kiss in the after glowwwww

Its what u want!

V4.

Now your with him and im alone,
Thinking of what might have been,
The death that put us together,
It tore us apart again.

Bridge:

..>when we got together,
My Energy, slipped away!
And when we get together,
If we get together, again!

Chorus: (over GNR bit)

They say that your so young
They say that your mixed up
Forever without a cause
a fox in pure skin,
Am I gettin it right?
have I become cool?
You asked for one smoke before I go....
A smoke a kiss in the after glowwww

Its what u want!
