"Angel Kisses"

Visit "[Angel Kisses](#)" on MotoLyrics.com

Chorus:

There are angels all around you
Before you were born they found you
Gently listen to your wisdom
You've been kissed a million times
Something's wrong with your eyes
Again you refuse to smile
I wish you could see what I see
You are heaven's dream

Chorus:

There are angels all around you
Before you were born they found you
The near distance holds your wishes
You've been kissed a million times
What a gift it is to capture your bliss
Own your thoughts and dare to risk
Like a child, fearless and real
Let the truth set you free

Chorus:

There are angels all around you
Before you were born they found you
Ride the rhythm of your vision
You've been kissed a million times
You've been kissed a million times
A million times
You've been kissed a million times
