You don't know what you got till it's gone
It's not here, you got you, you need to be strong
Today will pass no matter what you do
You're alive, so live, and be true to you
Chorus:
Girls like me don't sink we swim
We embrace our every whim
Though there might be twists or spins
Keep your chin up and let yourself swim
Swim, you gotta let yourself swim, swim
You got the power to make mountains move
Like a light in the sky, you're etherealized
So go ahead and make love to the moon
Carry on, your strong, sing your song
Chorus:
Girls like me don't sink we swim
We embrace our every whim
Though there might be twists or spins
Keep your chin up and let yourself swim
Swim, you know you gotta swim, swim
Hold on, you're not too far from where you want to be
Deep in you, lies the truth and your sanctuary
Chorus:
Girls like me don't sink we swim
We embrace our every whim
Though there might be twists or spins
Keep your chin up and let yourself swim
Swim, you know you gotta swim, swim
You gotta swim ya know, you gotta swim ya know
You gotta, you gotta swim ya know
Swim, go on, ya know swim
