If you were my girl
Aching to see the sun again
Aching to see your eyes to see how they shine
They make this world a better place
Aching to see you smile again
Aching to hear you laugh and say Im not dreaming
When you caress my hair
Your touch so warm and gentle baby
Then I can see true happiness at last

Chorus:

If you would be my girlfriend
Then I would be in heaven
Then I could do anything
Id stand on my head and sing
If you were my girl
2 x

I wish I could feel your lips right now
Wish I could let my hand
Glide through your hair
I wish I could softly hold your hand
I wish I could tell you every dream
I wish I could tell you everything that I feel
I wish I could tell you that
I need you here to kiss me baby
If only I could get myself to say
Hey,hey

Chorus:

There are so many beautiful girls in the world
But theres only one girl that I want
And Ive chosen today that I cant ever stay
Unless I can stay here with you

If you would be my girlfriend
(Girlfriend)
Then I would be in heaven
(In heaven in heaven)
Then I could do anything

Id stand on my head and sing
If you were my girl
(Girlfriend)
(If you were my girl)
If you would be my girlfriend
(If you were my girl Id give you the world)
Then I would be in heaven
(Yeah yeah)
Then I could do anything
I stand on my head and sing
If you my girl
(If you were my girl)
If you would be my girlfriend
(My girlfriend)
Then I would be in heaven
(In heaven)
Then I could do anything
I stand on my head and sing
If you were my girl
(You know Id do it)
If you were my
