Where have you
been all of my life?
Where have you come from?
Is this your first time too?
It's like I've known you in some other lifetime
We're part of the great plan.
Like to stars that shine

I stood here watchin', while it only ever happened to

Now I don't have to pretend

We're diggin that scene, we finally made it through the

Something 'bout you blows me away, like night over

We're diggin that scene, we finally made it through the
